Individual	27/01/2021	I am a concerned citizen of Ireland and i am seeking to find any/all documentation or record thereof, in relation to PCR test; What is the false positive rate for pcr test. What is the cycle threshold being used currently, has it been consistent throughout (March 2020 - present) (date of change if any) There are a number of reasons for my request which i shall outline here: In relation to the first point (1) of my request, it has come to my attention that there may be a high number of false positives namely due to a recent court decision in Portugal that when greater than 35 cycles are used up to 97% false positives are generated. Surely this issue deserves immediate attention as it is on this basis that ALL current restrictions are judged, if in fact the test is just 3% accurate current policies must be rescinded immediately. Link to court case here: <a href="https://uncensored.co.nz/2020/12/17/landmark-legal-ruling-finds-that-covid-pcr-tests-are-not-fit-for-purpose-so-what-do-the-msm-do-they-ignore-it/">https://uncensored.co.nz/2020/12/17/landmark-legal-ruling-finds-that-covid-pcr-tests-are-not-fit-for-purpose-so-what-do-the-msm-do-they-ignore-it/</a> In addition to this ruling, i have also discovered a challenge to the original paper submitted by a named professor recommending the use of PCR test, link here: <a href="https://cormandrostenreview.com/">https://cormandrostenreview.com/</a> The reason for the second part (2) of my request, it has also come to my attention that WHO recently changed their guidance re cycle threshold being used generating false positives; therefore lower CT should be used. It is my understanding that HSE was using 40-45 cycles, but I would like to know if recent changes to guidance have been implemented and if so; when and what is current cycle threshold. Link to WHO guidance here: <a href="https://www.who.int/news/item/14-12-2020-who-information-notice-for-ivd-users?fbclid=IwAR29vvJb-22fXzIEckoliG8M00nL_Rb1D0mwZwPdtZ2_a4JSTiumNXR9_Xk">https://www.who.int/news/item/14-12-2020-who-information-notice-for-ivd-users?fbclid=IwAR29vvJb-22fXzIEckoliG8M00nL_Rb1D0mwZwPdtZ2_a4JSTiumNXR9_Xk</a>	Refused	24/02/2021

Business / Special Interest Group	08/02/2021	<p>Why did it take more than three months after schools reopened before the HPSC Schools and Childcare Facilities Mass Testing Reports were released to the public, when it is clear from the Dept. of Education/HSE webinar on the 18th January that this information was being collected (i.e. Week 36 Results: Tests 188, Cases 6; Positivity Rate 3.2% and Community Transmission at that time = 3.7%) It is noted that the positivity rate dropped dramatically the next week to 0.9%, whereas community rates did not. Could any previous reports please be forwarded?</p> <p>Why is there a reported outbreak and cluster in a childcare facility in Week 35, yet no cases are reported in childcare facilities during this time, or before?</p> <p>- The cumulative totals in the HPSC School and Childcare Facilities Mass Testing reports do not correlate with the weekly totals in same reports - oftentimes tests, detected cases, facilities tested and facilities with detected cases do not add up and are either over reported or under-reported (sometimes substantially). Can you please clarify why this is?</p>	Refused	08/03/2021

Business / Special Interest Group	19/02/2021	COVID Variants This is a Freedom of Information access request. Please provide me with a full, accurate and complete list of records, including the date of the record, held by the HSE or under your authority, which describe the proven scientific method used by your organisation to distinguish between 'variants' of the Covid-19 coronavirus or between one form of Covid and another (such as a mutated form). If any records in the HSE match the above description, please provide enough information so that I may identify and access each record with certainty. Please provide also the title, author, date, journal, weblink etc of any document, online or otherwise, held on record by the HSE or under your authority, which describes the proven scientific method for distinguishing between one variant of Covid and another. I am using the terms "variant," "mutation" and "strain" in the same sense that the Minister of Health and medical professionals are using it when they refer to new or emerging forms or strains of the SARS-CoV2 coronavirus. For example, the government ascribes many news cases of Covid infection to a new variant. In doing so they are clearly implying that the so-called variant has been clinically distinguished from its predecessor, to wit the one identified originally at the start of the pandemic	Refused	22/03/2021

Individual	01/03/2021	I hereby make a Freedom of Information (FOI) Request pursuant to the Freedom of Information Act 2014 for: a full accurate and complete list of records held by the Health Service Executive (HSE) or under the authority of the HSE which describe the ISOLATION (emphasis added) of the SARS-COV-2 virus (Coronavirus COVID-19), taken directly from a symptomatic patient with COVID-19, where the sample was NOT (emphasis added) combined or mixed with any other source of genetic material (such as, for example, monkey kidney cells or cancer cells), thereby eliminating contamination as a possible alternative source of sampling. Please note that the word "ISOLATION" is used here in the normally understood meaning of that word, namely, the act of separating one thing from another. I am not referring to (and hence not requesting) documents where "ISOLATION" means the preparation of a culture of something else, the performance of an amplification test, (e.g. a PCR test which detects only mRNA or DNA), or to the sequencing of anything other than the viral isolate in question. If any records of the HSE match the above description, please provide enough information so that I may identify and access each record with certainty. Please provide also the title, author, date, journal, weblink, etc. of any document online or otherwise recorded on a document held by the HSE or under its authority which describes the ISOLATION procedure in question. I would remind you that a full, accurate and complete disclosure is required.	Refused	30/03/2021
