PQ 27123/22* To ask the Minister for Health the current position in regard to the future development plans for Naas General Hospital; the position in relation to planning permission and any other factors which might affect the issue of early provision of the accommodation required; and if he will make a statement on the matter. -Bernard J. Durkan

Dear Deputy Durkan,

The Health Service Executive has been requested to reply directly to you in the context of the above Parliamentary Question which you submitted to the Minister for Health for response.

Funding has been allocated in the HSE's Capital Plan 2022 to progress the design of a Day Procedures/Endoscopy, Oncology and Physical Therapy Unit at Naas General Hospital.

The procurement process for the engagement of the Design Team (6 no. technical consultants) is currently at the evaluation stage.

This project will be required to progress through a number of approval stages, in line with the Public Spending Code, including detailed appraisal, planning, design and procurement before a firm timeline or funding requirement can be established.

Yours sincerely,

Paul de Freine
National Director,
Capital & Estates
