Anna Lyons, Regional Health Forum Office

**725/85/20 – Minutes of previous meeting - 26<sup>th</sup> November, 2019**

The minutes of the previous meeting held on the 26<sup>th</sup> November, 2019 were proposed by Cllr Donagh Killilea, seconded by Cllr Bill Chambers and adopted.

### **726/85/20 Matters Arising:**

#### **W84Q2597 – Properties rented free of charge in Sligo**

**Action:** J Hoare, Estates agreed to revert to Cllr Declan Bree with the list of properties rented free of charge in Sligo

#### **W84M104: Maternity Services in Carndonagh Community Hospital**

**Action:** A Cosgrove committed to updating Cllr Doherty on this issue

### **727/85/20 Chairman's Address:**

The Newsletter was reviewed and circulated.

The Chairman welcomed Ms Breda Crehan Roche, Chief Officer, Community Healthcare West and wished her well in her new post.

Through the Chairman, Cllr Donagh Killilea requested a progress update on the Coronavirus. Tony Canavan CEO of the Saolta Healthcare Group outlined the pro active approach by the HSE and advised people to use the HSE website ([www.hse.ie](http://www.hse.ie)) as it is a very good source and very specific information regarding the virus.

### **728/85/20 Questions:**

#### **W85Q2604 – Private Ambulance Services at Portiuncula University Hospital**

**Action:** P O'Riordan to revert to Cllr Aisling Dolan with the % or level of transport covered by the private sector versus the ambulance section within the HSE.

#### **W85Q2617 – 60 Bed Modular Unit at UHL**

**Action:** CEO UL Hospital group to provide additional information regarding the staffing of the unit, proposed opening date and confirmation that the budget is secured for this unit.

**Action:** Cllr Seamus Morris requested a meeting with the CEO UL Hospital Group regarding the fire safe standards at the ED Dept in UL

#### **W85Q2629 – Physiotherapy Vacancies in Connemara**

**Action:** B Crehan Roche to revert to Cllr Ó Cualáin with the exact area referred to as South Connemara

#### **W85Q2630 – Staffing at Aras Mhic Dara**

**Action:** B Crehan Roche to revert to Cllr Ó Cualáin to outline the difficulty with recruiting Staff Nurses in Aras Mhic Dara.

#### **W85Q2633 – Replacement of Staff at St. John's Community Hospital, Sligo**

Cllr D Bree is looking for a positive progress report on the filling of this post for the March meeting

**Action:** J Hayes to keep Cllr Bree up to date on the filling of this post

#### **W85Q2638–CNU in Strabane**

Cllr Crawford seeks a constructive response on the possibility of a Community Hospital in Strabane to serve both sides of the river

**Action:** J Hayes to revert to Cllr Crawford

#### **W85Q2640 – Full Capacity Protocol in UHLK**

Action: T Canavan to forward the previous response on the full capacity protocol with figures for 2018 to re-issue to Cllr G Crawford

**W85Q2645 – Closure of Critical Care Team**

Action: B Crehan Roche to update Cllr Killilea on why this critical service was closed and why GP's and A&E were not notified

**W85Q2646 – Toghermore House Tuam**

Action: B Crehan Roche/ J Hoare to respond to Cllr Killilea with the total budget figure for this upgrade

**729/85/20 Motions:**

**W85M106: Brain Cooling:**

This Motion was proposed by Cllr Michael Kilcoyne, seconded by Cllr Declan Bree.

Action: This Motion will be referred to T Canavan for a response on the issue

**W85M108: Home Help Services**

This Motion was proposed by Cllr Declan Bree, seconded by Cllr Donal Gilroy and adopted.

Action: The Motion will issue to the Minister for Health to seek additional funding for home help hours nationally.

**730/85/2020 – Any Other Business:**

Cllr D O'Cualáin requested a presentation on Addiction Services for a future Committee meeting

Action: RHF Office to add this to the future list of proposed presentations.

**731/85/2020 Date & Time of Next Meeting:**

The next **Regional Health Forum** meeting will take place on Tuesday, 24<sup>th</sup> March, 2020 at 2pm in Galway.

The next **Regional Health Forum Committee** meeting will take place on Tuesday, 28<sup>th</sup> April, 2020, at 2pm in Nenagh.

This concluded the business of the meeting.

Signed:

\_\_\_\_\_

Cathaoirleach/Chairman

*Adopted at the Regional Health Forum West meeting*

## QUESTIONS RECEIVED REGIONAL HEALTH FORUM WEST – 23<sup>RD</sup> JUNE 2020

NUMBER	QUESTION	RAISED BY
<b>W88Q2697</b>	Has the recruitment process for staffing of the proposed new stroke unit at LUH commenced? What is the staffing posts required and previously agreed? What timescale is planned by HSE for LUH stroke unit commencement?	<b>Cllr A Doherty</b>
<p>The recruitment process for staffing the Acute Stroke Unit has commenced. The nursing staff have been appointed and therapy support staff recruitment is currently underway.</p> <p>Staffing includes 3.5 wte Nurses, 0.5 wte Healthcare Assistant, 0.8 wte Physiotherapist, 0.74wte Occupational Therapist, 0.4 wte Speech and Language therapist, 0.2 wte Dietetics and 0.5 wte Physiotherapy Assistant.</p> <p>The opening of this unit has been delayed due to the COVID-19 Pandemic but with ongoing recruitment is now planned to open the unit in September - subject to no further wave of COVID 19 patients presenting to the hospital.</p> <p><b>A. Cosgrove, COO, Saolta University Health Care Group</b></p>		
<b>W88Q2698</b>	The healthcare crisis with Covid has demonstrated the importance of isolation areas. Portiuncula University Hospital is a 24/7 - 365 day a year hospital handling casualty, maternity & surgeries for a catchment area of over 400 thousand people. In relation to the much needed 50 bed replacement ward block for Portiuncula University Hospital approved within the HSE Plan 2019, could I request an update on a) Status of the approved tender for the Portiuncula Hospital Ballinasloe Ward Block Enabling works Lot 173615:1 (etender deadline 20th November 2019) and timeline for completion of same b) Parallel tenders for Stage 2 construction & timeline for process.	<b>Cllr A Dolan</b>
<p>Following the initial contractor short listing process (stage 1) priced tenders for the enabling works package (stage 2) were sought on 4<sup>th</sup> March 2020. Due to COVID 19 the return date was extended until 22<sup>nd</sup> May 2020. Following receipt of tenders an evaluation process has been completed and the tender report prepared. It is intended to proceed with the award of contract in the coming weeks following expiry of the standstill period. It is anticipated that the enabling works contract would commence in August 2020 and be completed by early June 2021. It is intended to advertise for contractors to be shortlisted for the main ward block works later this year. Tenders could then be sought in early 2021 for the main works with a view to proceeding upon completion of the enabling works and subject to availability of funding in 2021.</p> <p><b>A. Cosgrove, COO, Saolta University Health Care Group /Joe Hoare, Assistant National Director of Estates (West)</b></p>		
<b>W88Q2699</b>	Prior to the Covid 19 pandemic LUH had an inpatient and outpatient waiting list of approximately 17,000 patients awaiting treatments. During the COVID period all outpatient and inpatient treatments were cancelled no doubt increasing the number awaiting treatment/procedures. Can SAOLTA now outline to me how they are going to address these increased waiting lists and times, are SAOLTA embarking on a recruitment drive to acquire the Staff needed to reduce the waiting lists and will more new beds be added to the capacity already at LUH to address the increased demands on LUH?	<b>Cllr G McMonagle</b>
<p>In order to address the increase in the waiting lists and times in Letterkenny University Hospital the hospital has:</p> <ul style="list-style-type: none"> <li>-availed of additional capacity made available under the HSE initiative with private hospitals,</li> <li>-engaged with the NTPF to source funding approval to outsource eligible patients to private hospitals</li> <li>-recommended validation of patients on waiting lists to ensure they are still require treatment and appointments,</li> <li>-commenced a number of outpatient initiative clinics in the hospital funded through the NTPF.</li> </ul> <p>One of the new wards constructed to allow LUH to manage the projected COVID-19 surge opened on the 22<sup>nd</sup> June 2020</p>		

to facilitate the admission of surgical in-patient elective cases. The surgical elective ward will provide a green pathway for all elective surgeries. This ward has 14 beds plus 2 HDU beds.

The opening of the surgical elective ward does not increase the bed capacity in the hospital as 10 beds remain closed on the Surgical 2 ward as part of our ICU COVID 19 contingency plan. The remaining 29 beds are available to meet peaks in emergency admission demand – between 18 to 21 of these beds have been used on any given day over the past 3 weeks. LUH is also temporarily using the second ward created for COVID-19 (Medical 6) pending the recruitment of staff to open as an inpatient ward. This temporary use has allowed us to provide increased medical day case treatments and additional urology outpatient services to offset increase in waiting lists in these areas during the COVID-19 pandemic.

Medical 6 will also be opened on the 22<sup>nd</sup> of June and will be used as a medical day case ward where bed capacity allows. It will be challenging this year to make a significant impact on the number of patients on our waiting lists due to COVID 19. Priority will be given to cancer and urgent cases.

**A. Cosgrove, COO, Saolta University Health Care Group**

<b>W88Q2700</b>	Has the Saolta hospital group/HSE got a policy in place at LUH regarding the service being provided by pathologists employed at the hospital, whereby GP,s are now being asked to complete by (Letterkenny pathologists group)to confirm if their patients are public/private when they send specimens to LUH after removing lesions from patients to get results with a schedule of fees to be paid to (Letterkenny pathologists group)in order to progress and if fees not paid referred to a debt recovery agency?	<b>Cllr C Brogan</b>
-----------------	---	----------------------

Not available at time of printing.

<b>W88Q2701</b>	I have been looking for funding for collaboration between the HSE and Leitrim county council to provide a house in our community for young adults with Intellectual disabilities. I have been looking for this now for 6 years to have them recognized as they all want to live independently with the backup of funding from the HSE to run the service at the appropriate accommodation when the house is purchased. Such a house has been identified in the community to suit the needs and is just waiting on commitment from the HSE to provide funding. Can you give me up to date information with regard to the provision of funding towards staff in this house in Manorhamilton?	<b>Cllr F Gurn</b>
-----------------	--	--------------------

Sligo and Leitrim HSE Disability Services, in line with the national programme Time to move on from Congregated Settings, are required to prioritise the closure of institutional residential facilities in both HSE Cregg services and HSE Cloonamahon services. To this end we have worked closely with Property Management, Estates and the local County Councils to identify and purchase properties to support individuals to move out into the community areas of their choosing. Houses are normally identified to meet the needs of individual residents with a capacity of four people moving together to their new home.

**Cregg Services**

Since the start of 2018 as part of the decongregation project :

- 40 people have moved out of the Cregg campus area to a number of houses in various locations across both Sligo and Leitrim.
- There are 38 people remaining to further decongregate.
- 9 people are in the process of decongregating to new houses in Leitrim at the present time
- 4 people will be moving to their new house in Leitrim before the end of Q3 2020.
- 12 people are to move to their new houses in Q4 2020

The 13 people remaining to decongregate will be moving to their new homes in Q1 2021 and this will be the completion of the Decongregation and closure of the Cregg Campus services.

### Cloonamahon

- Currently 34 persons remain on campus in Cloonamahon
- 15 persons are scheduled to decongregate by year end 2020
- This leaves a total of 19 persons remaining to decongregate in 2021
- Please note that 9 of the remaining persons reside in two bungalows external to the main building

Disability Services remain committed to identifying properties for all people requiring residential supports in the Sligo and Leitrim areas.

### Property in Manorhamilton Co. Leitrim

Recently a member of the Learning Disability Services community team met with New Grove Housing representative in respect of a proposal in the Manorhamilton area and unfortunately the Pandemic outbreak has prevented further discussion on the matter. Revenue funding will be the key factor in developing the proposal further i.e. staff funding as part of a Service Arrangement with New Grove Housing (Rehabcare). **This funding is not currently available within the HSE revenue stream in 2020.** The proposal will be reviewed further however the immediate priority is to complete the decongregation process for Cregg and Cloonamahon services.

*J. Hayes, Chief Officer, CHO1*

**W88Q2702**

In relation to Covid 19 can you please confirm:

- a. The number of tests carried out each day at Mayo University Hospital from 25<sup>th</sup> May to date.
- b. The number of tests carried out elsewhere in County Mayo each day from 25<sup>th</sup> May to date.
- c. Please list the number of positive results, the number of negative and the number of inconclusive results for each day in each location in Co. Mayo.
- d. Please confirm the total number of people who died of Covid 19 at Mayo University Hospital and at each of the other HSE facilities in Co. Mayo since the start of the pandemic.

**Cllr M Kilcoyne**

The total number of tests carried out in MUH from 25.05.20 to date = 409

Please note MUH patient swabs were also sent to Galway for testing during this time and the total from the 25.05.20 to date = 748.0

Please see attached breakdown.

<b>W88Q2703</b>	What actions are planned for to enable those waiting to avail of Consultant appointments and Procedures at UHLK be seen given the difficulties which exist.	<b>Cllr G Crawford</b>
-----------------	---	------------------------

The OPD Department reopened on the 8<sup>th</sup> June 2020 for all clinics. Visiting consultants will return on a phased basis. Fracture clinics were maintained over the last 3 months. Urgent cases that needed review were seen or had a consultation via telephone or video conference. There are now three options to reviewing patients in OPD, face to face, via telephone or using the software tool Attend Anywhere.

We recommenced our day surgery unit lists on Friday 22nd May, with a trial Gynae list of 4 patients. We have been working with all specialties to include equal share of lists, taking into account very urgent cases.

We have temporarily relocated medical day treatments from the day surgery unit in order to increase capacity for day surgery cases as part of our catch up programme.

On a phased basis we have also undertaken endoscopy lists in Kingsbridge private hospital, Sligo.

Planned elective in patient surgeries recommenced on the 22<sup>nd</sup> June.

The return to service was planned at the weekly Perioperative Department meeting.

To date, 100% of our patients have attended for pre-screening and surgery.

**A. Cosgrove, COO, Saolta University Health Care Group**

<b>W88Q2704</b>	Is the X-ray Unit in Clifden Community Hospital fully operational? Are Ultrasound facilities operational in Clifden? Is there a fulltime/ permanent radiographer working there? How many x-rays have been carried out there over the last 3 years? Are there vacancies for radiographers in Clifden at present? How are referrals made to the x-ray service in Clifden?	<b>Clr D Ó Cualáin</b>
-----------------	---	------------------------

The X-ray Unit in Clifden Community Hospital is fully operational, with one x-ray room processing GP referrals and inpatient (Clifden Community Hospital) requests. A radiographer from the UGH campus attends on site to treat approx. 15-20 patients for X-ray at a time. There is no requirement for a full time permanent radiographer as the service is provided for on demand.

There are no ultrasound facilities operational in Clifden, this service is provided for in UHG.

The tables below outline Clifden Department of diagnostic radiology activity of exams/patients for 2017/2018/2019.
