Clinical Leadership & Models of Care

- Healthy Ireland goals reflected in all clinical programmes – models of care underpinned with prevention
- “Promote primary and secondary prevention in Clinical Practice”
- “Ensure every contact counts”
- **Prevention embedded in Enhanced Community Care Service Models and GP work to manage chronic disease in the community**

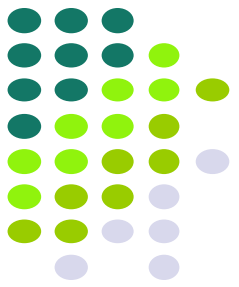

Model for *Making Every Contact Count*

All health **professionals** and **healthcare assistants** will be **trained** to a level that enables them to carry out a **brief intervention** with their **patients**

The Power of Patient Voice - RCSI Hospitals Group HI Implementation Plan

Political embedding....and synergies..
Health Service/policy Chiefs...hearts and minds...
Teams of Health and Wellbeing in services
HSE funded services & partners
Clinical Leadership
Local Authorities, local community Groups,
Patient partners & public, active citizenship

Persistence, taking opportunities, mainstreaming, holding each other up
