Inspection Report

Re: Inspection of Moyglare Nursing Home under the Health (Nursing Homes) Act, 1990 and the Nursing Homes (Care & Welfare) Regulations 1993

Dear The Doyle Family,

The Nursing Homes Inspection Team from a Nursing perspective inspected Moyglare Nursing Home on the 4th July 2007.

The inspection commenced at 9am and was completed by 12.30pm. This inspection was routine inspection and unannounced.

There were 56 residents on this date. The Nursing Home is currently fully registered for 56 residents.

The above nursing home was found to be in substantial compliance from a Nursing perspective under the Health (Nursing Homes) Act, 1990 and subsequent Regulations at the time of inspection.

Recommendations:

- Ensure care plans are initiated and implemented when the condition of a resident changes to require an altered level of care e.g. wound care, pain management as in the case of M.B.
- Remove communal toiletries and replace with resident individualised toilet bags and individualised toiletries.
- Ensure paper towel is at all shared hand washing facilities.
- Submit outstanding PIN number.
- Consideration to be given to reorganisation of storage facilities in order to streamline what is being stored therein and to maximise the storage space.
- Update the management of aggressive patients policy and include initiation and review dates on policies
