Re: Inspection Report

Dear Mr. Corkery,

The Nursing Home Inspection Team visited Shalom Nursing Home on the 4th July 2006.

There were 32 residents on this date. The nursing home is currently registered for 42 residents.

The following issues require your attention and action:

- 1: In relation to recording of controlled drugs in use – please adhere to An Bord Altranais guidelines.
- 2: Please submit the PIN certificate for Nurse _____ for 2006.
- 3: Submit the insurance certificate for the home which expires July 2006.
- 4: We refer to our conversation with you following our inspection and advise that furniture and equipment not in use be removed. It is essential that fire exit areas are cleared immediately.

Yours sincerely,

Inspection Team Member
