14th November 2023

Deputy Pauline Tully,
Dail Eireann,
Leinster House,
Kildare Street,
Dublin 2.
E-mail: pauline.tully@oireachtas.ie

Dear Deputy Tully,

The Health Service Executive has been requested to reply directly to you in the context of the following parliamentary question, which was submitted to this department for response.

PQ: 47465/23

To ask the Minister for Children; Equality; Disability; Integration and Youth further to Parliamentary Question No. 1346 of 11 September 2023, if the HSE have procured diagnostic ASD assessments from the private sector; and if not, the timeframe within which this will be in place.

HSE Response

Approximately €11m has been allocated to address waiting lists for clinical assessments identified through the Assessment of Need process. This funding is being utilised to procure diagnostic ASD assessments from the private sector.

Progressing the outsourcing of these assessments is challenging however, in this regard, Disability Services nationally is working with HSE Procurement to develop a tender process and Service Specification for the delivery of Assessment of Need from private providers. A successful procurement process will facilitate the CDNTs to focus on the provision of intervention for children on their caseloads.

In parallel, a national procurement process is also being progressed.

In addition, the HSE at local level is using time related savings to source AON assessments privately for children in the order as registered on the AOS (AON information management system).

In line with appropriate procurement procedures, Garda vetting and due diligence practice, private providers are currently being contracted by the HSE to provide assessments and / or interventions. In such instances, the HSE ensures that the contracted providers are appropriately qualified and that any assessments or interventions are provided in line with the appropriate standards.

Assessment of Need Administrative Hubs

AON Administrative Hubs are now in place in Community Healthcare Areas (CHOs) 1, 4, 5, 7, and 8.

Assessment hubs have been established in CHOs 3, 6 and 9. CHO 3 is utilising existing staff reassigned from CDNT service. CHO 6's hub is pending recruitment of clinical specialist posts and in interim, the AON process is outsourced to a private service provider.

CHO 9 has recruited 2 of its 3 clinical specialists and recruitment of the 3rd is in train.

It is important to note that children do not require an Assessment of Need as defined by the Disability Act (2005) in order to access a CDNT or Primary Care service. They can be referred by a healthcare professional or parent/carer to the CDNT for children with complex needs as a result of their disability, or to Primary Care for children with non-complex needs.

Yours Sincerely,

**Bernard O'Regan,
Head of Operations - Disability Services,
Community Operations**
