Deputy Mark Ward
Dail Eireann,
Leinster House,
Kildare Street,
Dublin 2.

14th March 2024

PQ Number: 1334/24

PQ Question: To ask the Minister for Health for an update on National Clinical Programme funding for eating disorders for 2024; the level of new funding for eating disorders; when the National Clinical Programme will be operating at full capacity; and if he will make a statement on the matter. -Mark Ward

Dear Deputy Ward,

The Health Service Executive has been requested to reply directly to you in the context of the above Parliamentary Question, which you submitted to the Minister for Health for response. I have examined the matter and the following outlines the position.

In January 2018, the HSE published a National Model of Care for Eating Disorders (MOC) in partnership with College of Psychiatrists' of Ireland and Bodywhys. In the absence of a pre-existing dedicated eating disorder infrastructure or strategy, this Model of Care document has been developed in order to guide the provision of high quality, accessible and value for money eating disorder services in Ireland. Key recommendations include:

- The development of a national network of dedicated eating disorder teams embedded within the mental health service
- A stepped model of outpatient, day patient and inpatient care provision based on clinical need
- The development of a skilled, trained workforce

The NCPED aims to establish an ED network (8 adult teams and 8 CAMHS teams) in accordance with the agreed Model of Care 2018. These consultant led multidisciplinary teams provide specialist eating disorder assessment and treatment in the community and are the foundations of delivering quality eating disorder care across the stepped model of care. Today (March 2023) there are 11 NCPED teams at various stages of development across the HSE 5 CAMHS and 6 Adult teams.

Between 2016 and 2022 over €8M has been invested in ED teams. 100 WTE's have been funded to establish Eating Disorders teams and over 80WTE's were filled on 11th November 2023 before a pause on recruitment was commenced within the HSE.

We are awaiting funding allocation for 2024, once announced we will be able to progress recruiting and commencing new team. Each budget cycle we request funding for an additional 2 -3 teams. We still require at least an additional 6 teams to have complete coverage across HSE. Many teams established were not fully funded for all staff required and do require additional posts each year to meet increased population and demand.

I trust this information is of assistance to you. Please do not hesitate to contact me if you have any further queries.

Yours sincerely,

Dr Amir Niazi
