PQ 45907/24

To ask the Minister for Health the investment in the National Ambulance Service fleet in each of the years 2011 to 2025 inclusive; and if he will make a statement on the matter. -Colm Brophy

Dear Deputy

The Health Service Executive (HSE) National Ambulance Service (NAS) has been requested to reply directly to you in the context of the above Parliamentary Question, which you submitted to the Minister for Health for response.

Up to 2012, pre the amalgamation of the Ambulance Services into the National Ambulance Service, all fleet & equipment was purchased locally through each regional area. Funding is allocated to progress the emergency ambulance replacement programme; the intermediate care ambulance replacement programme; assorted ambulance service equipment and new development vehicles.

The following are the figures as requested:

YEAR	ALLOCATION €m	YEAR	ALLOCATION €m
2012	3.8	2019	10
2013	9.0	2020	21
2014	7.5	2021	17
2015	13.0	2022	20
2016	14.5	2023	32.6
2017	14.5	2024	34.3
2018	9.1	2025 <i>to be allocated</i>	17.5

Total including 2025 to be allocated = **€223.8m**

I hope this information is helpful.

Yours sincerely

Vincent Cronly  
Director of Planning and Infrastructure  
National Ambulance Service
