HSE Response

The HSE Time To Move On policy is supporting people to progress from campus based/ institutional settings to community based homes with support. The on-going commitment of the HSE to the vision of "Time to Move on" has been fundamental in bringing about meaningful and sustainable change for approximately 2,500 individuals since the programme began and is enabling these individuals to live ordinary lives in ordinary places in the community.

Transforming Lives Time to Move on From Congregated Settings Subgroup – Location Review Group Report: Revised Register of Congregated Settings 2019 recommended periodic reviews of residential settings to ensure an accurate register is maintained and a review was carried out between July 2023 and March 2024 by way of site visits and data collection. This review not only enabled the HSE to confirm the number of individuals remaining in the HSE tracked settings it also assisted with prioritisation of the remaining settings for funding over the next 1 – 10 years.

At the end of December 2023 there were 1,415 individuals remaining in the HSE tracked congregated settings.

The figures for transitions, admissions and deaths from 2019 to date in 2024 are as follows:

	2019	2020	2021	2022	2023	2024
Number of Transitions	116	118	127	38	63	25
Number of Admissions	23	25	28	53	37	8
Number of RIPS	97	95	91	81	56	42

Yours Sincerely,

Bernard O'Regan
Assistant National Director
National Disability Team
