28th January 2025

Deputy Eoghan Kenny,
Dail Eireann,
Leinster House,
Kildare Street,
Dublin 2.
E-mail: eoghan.kenny@oireachtas.ie

Dear Deputy Kenny,

The Health Service Executive has been requested to reply directly to you in the context of the following parliamentary question, which was submitted to this department for response.

PQ: 46431/24

To ask the Minister for Children; Equality; Disability; Integration and Youth the number of children aged 0 to 18 years who are waiting for first-time intervention in all areas of early intervention in each CHO, by individual area and by each composite LHO within each CHO; the number on the public list; the number on the children's disability network team list in each CHO, in tabular form; and the length of time that they are awaiting intervention, by age.

HSE Response

Children requiring interventions including health and therapy services would access services through Primary Care Teams in CHO Areas as well as through Children's Disability Services.

HSE Disability Services does not gather data on services provided through other service areas such as Primary Care. It is not possible to give information on the number of children aged zero to 18 awaiting first-time intervention in all areas of early intervention, however Primary Care Operations has compiled the latest available waiting list data, on services for which they collate data, for the end of March 2023 for those aged 0 to 17 years and 11 months.

- Table 1 in the Appendix includes the data for Psychology - Number of 0-17 years & 11 months old Patients waiting for treatment end of November 2024.
- Table 2 in the Appendix includes the data for Occupational Therapy - Number of 0-17 years & 11 months old Patients Awaiting First Time Assessment end of November 2024.
- Table 3 in the Appendix includes the data for Physiotherapy - Number of 0-17 years & 11 months old Patients waiting for Assessment end of November 2024.
- Table 4 in the Appendix includes the data Speech and Language Therapy - Number of 0-17 years & 11 months old patients awaiting Initial Assessment – end of November 2024.

- Table 5 in the Appendix includes the data for Speech and Language Therapy - Number of 0-17 years & 11 months old patients awaiting Initial Therapy – end of November 2024.
- Table 6 in the Appendix includes the data for Speech and Language Therapy - Number of 0-17 years & 11 months old patients awaiting Further Therapy – end of November 2024.
- Table 7 in the Appendix includes the data for Dietetics - Number of 0-17 years & 11 months old patients waiting for treatment end of November 2024.
- Table 8 in the Appendix includes the data for Ophthalmology - Number of 0-17 years & 11 months old Patients waiting for treatment end of November 2024.
- Table 9 in the Appendix includes the data for Audiology - Number of 0-17 years & 11 months old Patients waiting for treatment end of November 2024.

It is important to note that these primary care lists do not include children who are on the Childrens Disability Network Teams lists.

Childrens Disability Services

In line with the Progressing Disability Services model, 93 Children’s Disability Network Teams (CDNTs): are aligned to 96 Community Healthcare Networks (CHNs) across the country and are providing services and supports for children aged from birth to 18 years of age.

Each CDNT covers a specific geographical area and holds a waiting list for children with complex needs residing in that area.

The model of service for all CDNTs is family-centred and based on the needs of the child. This includes universal, targeted and specialised supports and interventions, as appropriate to the individual child and family. It is based on the objectives of empowering and supporting parents and others who are with the child on a daily basis to facilitate the child’s developmental needs.

The CDNTs are currently providing services and supports for over 42,000 children and strategies and supports for urgent cases on the waitlist where staffing resources allow. However, there are significant challenges for CDNTs including:

- Significant staffing vacancies
- Growth in numbers of children with complex needs as a result of their disability.
- Growth in demand for Assessment of Need, diverting further resources away from interventions

Roadmap for Service Improvement 2023 – 2026, Disability Services for Children and Young People

The HSE’s Roadmap for Service Improvement 2023 – 2026, Disability Services for Children and Young People is a targeted Service Improvement Programme to achieve a quality, accessible, equitable and timely service for all children with complex needs as a result of a disability and their families.

The Roadmap, has four Working Groups which report into a Service Improvement Programme Board every month which in turn reports to the Roadmap Oversight Group which was chaired by the Minister of State, Disability Services.

Waiting List for the Childrens Disability Services

Historically the number of children waitlisted for children’s disability services provided by section 38 and section 39 providers has not been available nationally. The establishment of CDNTs in 2021 has facilitated the collection of this data. A National Management Information System for all 93 CDNTs is being rolled out and when implemented, will provide current data on waiting lists and other details for all CDNTs.

Pending full roll-out, manual data collection is on-going. The table below is the most recent validated data available. - end of December 2024 activity reports. This shows the number of children that are waiting for an initial contact with a CDNT in the 9 CHO Areas.

Status report	CHO 1	CHO 2	CHO 3	CHO 4	CHO 5	CHO 6	CHO 7	CHO 8	CHO 9
No of children waiting 0-3 months for an initial contact @month end	109	175	247	157	82	61	151	296	48
No of children waiting 4-6 months for an initial contact @month end	70	102	157	120	83	74	153	178	62
No of children waiting 7-12 months for an initial contact @month end	58	136	298	104	150	138	325	282	128
No of children waiting over 12 months for an initial contact @month end	405	242	605	305	1091	1228	1942	800	2358

In addition, 722 children (&/or their parents) who are on the CDNT waiting list participated in one or more individual and/or group intervention appointments during December 2024.

Please also note that this is an interim dataset as we await the roll out of the National Information Management System and some individual CDNTs indicate that they do not have a system in place to capture this level of activity, therefore there are gaps in data returns for some of the CHO Areas.

Yours Sincerely,

Bernard O'Regan
Assistant National Director
National Disability Team
