Information resources for COVID-19 and Influenza vaccination programmes:

Information resources for COVID-19 and influenza vaccination programmes will be based on orders and will be delivered with the vaccines. This includes Record Cards and Patient Information Leaflets (PIL) and a small quantity of Booklets. COVID-19 PIL and record card must be given to those who receive a COVID-19 vaccination.

A new feature of the COVID-19 Record Card is a QR code which patients can scan and this leads them to the Patient Information Leaflet (PIL).

Additional Flu booklets and COVID-19 record cards are available to order on the [Health Promotion Website](#) under the immunisation section.

All resources, including translated and accessible materials can be found on the HSE website at: [COVID-19 Vaccine Materials](#) and at [Flu Vaccine Information](#)

Influenza Record Cards

Flu Record Cards are distributed directly with the flu vaccines from NCCS.

Note, these cards should only be used with HSE vaccines, additional records cards are not available.
