

Practice Tool 11

DOUGHNUT

Consider what your role is. What are the must do's in relation to the protection plan? What are the core responsibilities?

Use this tool to clarify exactly what your role is, what actions you have responsibility/ oversight for, what areas of creativity and judgement can be used, and where others are involved e.g. family, other professionals. Think clearly about what is and is not your responsibility and explain this to the person/representative.
