Home Support	
1	<b>KPI Title</b> OP53 - No. of home support hours provided (excluding provision of hours from Complex Home Support)
1a	<b>KPI Short Title</b> Home Support Hours Provided
2	<b>KPI Description</b> The Home Support Service for Older People provides personal and/or essential domestic care to dependent people to support them to live at home. It should support and complement informal care. This Home Support Service is funded from the Home Support allocation (Single Funding) from Services for Older People (SOP) Budget with the Service being provided by directly employed HSE Health Care Assistants (Home Support) and by Private Providers with HSE Service Arrangements. This KPI counts the total number of home support hours provided (excluding provision of Home Support hours from Complex Home Support) to Service Users through home visits by Health Care Assistants (Home Support)/Home Support Workers. The count of hours includes any paid leave for HSE directly employed Health Care Assistants (Home Support). The number of home support hours provided incorporates hours provided to Older People, Disabilities and Others (to include Mental Health and Children and Families Services).
3	<b>KPI Rationale</b> Provide information on the usage of home support hours in the community and facilitate adjustment, if required, of service activity to achieve targets and live within the available resources.
3a	<b>Indicator Classification</b> National Scorecard Quadrant - Access
4	<b>National Target</b> 2025 National Service Plan Cumulative target: 24m hours HSE DNE: 5.93m hrs; HSE WNW: 4.31m hrs; HSE MW: 1.91m hrs; HSE SW: 3.21m hrs; HSE DSE: 4.18m hrs; HSE DM: 4.52m hrs
4a	<b>Target</b> The target for home support hours is allocated across each Health Region to LHO level and profiled across the 12-months of 2025 on a calendar month basis i.e. Jan target is for 31-days, Feb 28-days, June 30-days etc. January: 2,038,355, February: 1,841,096, March: 2,038,355, April: 1,972,605, May: 2,038,355, June: 1,972,605, July: 2,038,355, August: 2,038,355, September: 1,972,605, October: 2,038,355, November: 1,972,605, December: 2,038,354

7	<b>Data Collection Frequency</b> Monthly
8	<b>Tracer Conditions</b> Any person may apply on the appropriate form to be considered for a Home Support service. Where an applicant cannot complete the form him/herself an application/referral may be made on behalf of the Applicant in line with the provisions of the Assisted Decision Making (Capacity) Act 2015 which came into effect on the 26th April, 2023. Current legislation in relation to the Home Support service does not distinguish between people with limited and people with full eligibility. Therefore, in the context of current legislation the Department of Health has confirmed that access to Home Support services should be based on assessed care needs. The vast majority of beneficiaries of the Home Support service will be older people i.e. aged 65yrs or over. However, there will be flexibility in relation to applications from people aged less than 65yrs whose assessed needs are best met by Services for Older People.

## Complex Home Support funding (OP)

1	<b>KPI Title</b>	OP62 - No. of home support hours provided from Complex Home Support funding (OP)
1a	<b>KPI Short Title</b>	Complex Home Support hours (OP)
2	<b>KPI Description</b>	Complex Home Support funding supports Service Users over 65 years of age with higher levels of assessed care needs or complexity, in receipt of Home Support of 56 hours or above per week to live at home if this is their will and preference. It can facilitate return home from hospital or residential care, prevent attendance/admission to A&E/Acute Hospital and/or prevent or delay admission to long term residential care. It should support and complement informal care. The Home Support service is provided by directly employed HSE Health Care Assistants (Home Support) and by Private Providers. This KPI counts the total number of home support hours provided to Service Users through home visits by HCAs (Home Support) funded from the Complex Home Support Budget Services for Older People (SOP) by both HSE and private service Providers. The count includes paid leave for HSE HCAs. The reporting period is 1 calendar month. Service Users receiving Home Support Services under the historic Intensive Home Care Package (IHCP) Scheme are comprehended in this Complex Home Support KPI.
3	<b>KPI Rationale</b>	Provide information on the usage of home support hours from Complex Home Support funding to Service Users and facilitate adjustment, if required, of service activity to achieve targets and live within the available resources.

## Complex Home Support funding (OP)

1	<b>KPI Title</b>	OP64 - % of Service Users in receipt of Complex Home Support (OP) funding with a key worker assigned
1a	<b>KPI Short Title</b>	% of Complex Home Support (OP) Service Users with key worker
2	<b>KPI Description</b>	<p>Complex Home Support funding supports Service Users over 65 years of age with higher levels of assessed care needs or complexity, in receipt of Home Support of 56 hours or above per week to live at home if this is their will and preference. It can facilitate return home from hospital or residential care, prevent attendance/admission to A&amp;E/Acute Hospital, and/or prevent or delay admission to long term residential care. NHSS		
1	<b>KPI Title</b>	OP15 - % of population over 65 years in NHSS funded beds (based on 2022 Census figures)
1a	<b>KPI Short Title</b>	% of population over 65 years in NHSS funded beds
2	<b>KPI Description</b>	This metric shows the percentage of the population aged 65 and over that is availing of the Nursing Homes Support Scheme and includes Savers and Contract Bed clients. This metric also includes an estimate based on clients aged 65 and over who are supported under the long term residential care subhead in respect of (a) subvented patients and (b) savers - Section 39 voluntary organisations. It does not include patients admitted privately to approved nursing homes or patients residing in private nursing homes that are not approved for the purposes of NHSS.
3	<b>KPI Rationale</b>	With an increasing ageing population it is necessary to monitor the age profile of clients availing of support under the NHSS to ensure the best management of the service and use of resources.

NHSS	
1	<b>KPI Title</b> OP8 - Number of persons funded under NHSS in long term residential care during the reporting month
1a	<b>KPI Short Title</b> Number of persons funded under NHSS
2	<b>KPI Description</b> This metric measures the total number of people both public and private who are in receipt of long term residential care services and who are supported under the Nursing Homes Support Scheme during the reported month. This includes State Support only, State Support and Nursing Home Loan, Nursing Home Loan only. It also includes 'Savers' i.e. people in public long term care at the commencement of the scheme who did not opt for the NHSS along with people on subvention and in older persons contract beds who did not opt for the scheme.
3	<b>KPI Rationale</b> The rationale is to establish the number of people in long-term residential care who are receiving financial support from the State. In the transition years of the scheme, there may be some individuals receiving support via the subvention scheme or contract beds. However, ultimately the Nursing Homes Support Scheme will be the only State funded means of accessing long-term residential care.

1	<b>KPI Title</b>	OP9 - Percentage of clients with NHSS who are in receipt of Ancillary State Support
1a	<b>KPI Short Title</b>	% of clients in receipt of Ancillary State Support
2	<b>KPI Description</b>	Where a clients assets include land and property in the State (i.e. chargeable assets), the 7.5% (5% if application was made prior to 25/07/13) contribution based on such assets may be deferred. This is an optional benefit of the scheme called Ancillary State Support. The number of clients ' who choose to avail of Ancillary State Support' are all applicants who declare chargeable assets on their application for State support and who also apply for Ancillary State Support in relation to such assets. The metric measures the number of people who apply and are in payment of Ancillary State Support. However, it also tells us what percentage of the total number of people who are in receipt of state support apply and receive Ancillary State Support payments under the scheme.
3	<b>KPI Rationale</b>	The rationale is to establish the number of clients who are in receipt of ancillary State support, that is, the number who are in payment of ancillary State support.

Public Beds		
1	<b>KPI Title</b>	OP12 - No. of NHSS Beds in public long stay units
1a	<b>KPI Short Title</b>	No. of NHSS Beds in public long stay units
2	<b>KPI Description</b>	The total number of long stay beds in public designated centres for older people -This includes all HSE facilities and all facilities receiving funding under s.38 of the Health Act 2004 which are registered with HIQA under the Health Act 2007 (Registration of Designated Centres for Older People) Regulations 2009 (S.I. 245 of 2009). In other words, it includes HSE and section 38 residential care facilities for older people which provide 24 hour nursing care. These facilities provide some or all of the following for older people: long-term care, respite, rehabilitation, convalescence and palliative care.
3	<b>KPI Rationale</b>	It is policy to maintain public provision of residential care services, including nursing home care, for older people. This metric enables this provision to be monitored and to be contrasted against the total national provision of residential care.

Transitional Care		
1	<b>KPI Title</b>	OP44 No. of persons in receipt of payment for transitional care in alternative care settings
1a	<b>KPI Short Title</b>	No. of persons in receipt of payment for transitional care in alternative care settings
2	<b>KPI Description</b>	Transitional Care Funding (TCF) is allocated to facilitate the transition of a person from an Acute Care setting to long-term care. This financial support is given when a person has been assessed as needing long-term care, and is in agreement, pending the release of NHSS Fair Deal funding. TCF also serves to facilitate short-stays in an accredited Nursing Home NH for people who are deemed medically ready for discharge from acute care but are waiting for alternative care pathways. It also functions as a community support, enabling direct transfers from community settings to NHs for specified care pathways.
3	<b>KPI Rationale</b>	TCB's facilitate the discharge of Delayed Transfers of Care patients to private nursing homes for patients waiting for NHSS care or who require a period of convalescence and return home.

## interRAI Ireland Assessment

1	<b>KPI Title</b>	OP56 - No. of People seeking service who have been assessed using the interRAI Ireland Assessment System
1a	<b>KPI Short Title</b>	Number of interRAI Assessments completed
2	<b>KPI Description</b>	<p>The interRAI Ireland Assessment is a comprehensive IT based standardised assessment used to assess the health and social care needs of people (primarily those over the age of 65 years) who may be seeking care/services, in particular Home Care support. This will ensure that people being assessed for support services have access to a standard and thorough assessment, regardless of where they live or who is doing the assessment.</p> <p>The interRAI Ireland assessment is replacing the current Common Summary Assessment Report (CSAR) paper based assessment and is being rolled out across community and acute hospital settings nationally in 2025.</p>
3	<b>KPI Rationale</b>	Comprehensive information from interRAI assessments is recorded electronically and is securely stored which allows ease of access to information and reduces duplication of assessment. The information generated by the comprehensive interRAI assessment highlights opportunities for improvement for the person and potential areas of decline. It facilitates the creation of individualised care plans which can lead to improved health outcomes for clients. This KPI was introduced to track the implementation of the interRAI Ireland Assessment Tool.
