

Ireland's Interns 2011

Available Intern Posts July 2011

Note:

- Each of the post reference numbers in this list of available posts represents a distinct intern post, showing all rotations through which an individual intern will rotate during the internship. Rotations will ordinarily be in the order presented here but may be subject to change.
- The post details presented are accurate as at March 2011. However, some details, such as supervising consultants / principals may change during internship.
- Applicants should note that health services in Ireland are currently undergoing significant reconfiguration. All NCHD posts, including interns are subject to requirements for health service reconfiguration. For example, where a particular department is moved from one clinical site to another as a result of reconfiguration, intern posts will re-locate along with other departmental colleagues.
- Interns are assigned to teams led by one or more consultants; interns may be supervised by trainers other than those listed here.

Abbreviations used:

UH	University Hospital
RH	Regional Hospital
GH	General Hospital
NOH	National Orthopaedic Hospital
SIVUH	South Infirmary Victoria University Hospital (South Intern Training Network)
AM(A)U	Acute Medical (Assessment) Unit
GI	Gastrointestinal
GIM	General Internal Medicine
OMFS	Oral & Maxillofacial Surgery
