Re: Change to Primary Childhood Immunisation Schedule; Inclusion of Varicella Vaccine

Dear Doctor,

The HSE has announced a series of changes to the primary childhood immunisation schedule for all babies born on or after 1 October 2024. The new PCIP schedule will be applicable to children born from 1st October 2024. The new schedule provides for the inclusion of the Chickenpox (varicella) vaccine at 12 months and at 4/5 years, the inclusion of a 6 in 1 vaccine and removal of the Hib (Haemophilus Influenzae Type B) vaccine at 13 months, and the removal of the Meningococcal C vaccine at 6 months. The child's date of birth will decide which schedule they are on as follows;

- If they are born on or before 30th September 2024, then the existing childhood schedule will apply even if they need to catch-up. There is no chickenpox vaccine available in this schedule.
- If they are born on or after 1st October they will be offered a new childhood schedule, the chickenpox vaccine is available on this schedule and is recommended when babies are 12 months of age.

There are no changes to the number of GP visits required. They remain at 2, 4, 6, 12 and 13 months. For babies on the new schedule, NIAC recommend a second varicella vaccine, to be given when children are aged 4-5 years in Junior Infants as a combined MMR and varicella vaccine, MMRV. This is part of the schools' immunisation programme and will be implemented in 2029/2030.

To provide payment to GPs under the new PCIP schedule, new regulations have been drafted and are currently with the Office of Parliamentary Counsel (OPC) to be finalised. In order to avoid any delay in processing payments, we have received instruction from the Department of Health to implement the revised fee schedule on an administrative basis, pending entry into force of the relevant regulations. There will be no change to the process in claiming for these vaccines under the PCIP schedule.

A copy of the fee rates for babies born on or before the 30th September 2024 are attached at Appendix 1 and a copy of the fee rates for babies born on or after the 1st October 2024 are attached at Appendix 2.
